BATTERED & READY

Take a bite of our battered fish and you'll find a crisp and golden crust surrounding a tender and juicy piece of fish. These are ready to fry up and serve.

We have two types of batter. Our Giant Joe batter is impressively light and crisp and will cook up golden brown every time, even with dark oil. These natural fillets have great texture and plate presentation. We also have a traditional batter that is one of the lightest in the industry, so you get more fish, and less batter.
